By the famous Dakota of Upsall, we believe Godfather to be without doubt one of the most influential bulls of the modern era. He consistently produces cattle which thrive in both the commercial and show environment, including male offspring to 21'000gns and females to 16'000gns as a calf at foot. Notable offspring include Fearn Jumpstart, Fearn Norseman, Glendual Sammy, Coldrochie Kensington, Burnside Red Bull, Elliot Estelle 695, Blackbrook Heathermaid Rosa and many more.

Elmer was an outstanding Fearn Bundaleer son. His daughters always deliver they are easy fleshed extremely quiet and have excellent longevity.

In terms of finishing cattle at grass we haven't found anything else yet to match him, his last crop of steers averaged 360kgs DW at 18 months of age from grass alone. Elmer has sired many a prize winning bull.

Jimmy is an embryo from the highest priced cow at the Austin's sale in New Zealand combining Bonny 08064 and Broughton Park Diplomat from Australia. He's a big stretchy bull and is leaving long milky females, with fantastic udders many of which have classified EX. If you are looking for more colour in your herd, Jimmy is the bull to cover white cows, having never left any white calves to date.

No limits made his way to the Dunsyre herd as a yearling at the same time Nimrod and Nightrider came north. When we saw him last year on our way home from judging the north of England herd competition even with a hurt shoulder it was fair to say he impressed as did the many calves Carey had on the ground by him. When we got the opportunity for him to come home it wasn't something we were going to pass up. Since then he has run with 40 cows in the summer and gained condition and when semen collection time came around he was first on the list.

After not selling in the sale last year Resolis kept getting better and better and by the time breeding season came around we felt he was too good not to use, he went from strength to strength and didn't lose a drop of condition whilst working. We had a lot of interest in him through the summer when people saw him with cows and for that reason decided to collect some semen and offer it up for sale.

Firefox of Upsall was bought in 2020 as cover for our existing bull team which was on the young side that season. This Mandalong Super Elephant son is now rising 12 and like fine wine is getting better with age. With his first crop of heifers calving down last spring it's be fair to say we're delighted with them. They are functional, easy handled, correct, milky young cows with great bags who all classified well for heifers calved at 2 y/o.

Palmerston was purchased at Stirling in 2022 for 25,000gns the highest we have ever paid for a bull. We were drawn to Palmerston firstly on paper where of the 18 sets of data, 14 are in the top 10% and 7 of those in the top 1%. Palmerston is a real rectangle of beef he's got depth right the way through and carries himself really well. Our first crop of calves from Palmerston have really impressed us and we're looking forward to seeing how they grow on and perform in the coming years.

Dunsyre Nimrod was brought from Carey Coombs in 2020 as a junior herd sire, he's a smart roan son of Sutherland Bundaberg with good calving figures. His females have been awesome so far, being kind mothers with plenty of milk and we're excited to see how they mature as they head into their prime.
